

2nd Biochar Research Wales (BReW) meeting at Swansea University, 11th July 2013.

Biochar and **Natural Black Carbon** in soils are currently 'hot' research topics within Welsh Institutions and collaborative bodies. The aim of this interdisciplinary meeting is to provide an opportunity for exchange in this field and draw attention to the role **Welsh research** plays within the wider fields of **Climate Science** and **Carbon Sequestration**.

Two **keynote** speakers **Dr Saran Sohi** (Edinburgh University) and **Dr Philippa Ascough** (Glasgow University) will discuss the state of Biochar and Black Carbon Research at the **UK** and **Global** level.

Speakers:

- * Sion Brackenbury (Commons Vision)
- * Prof. Alayne Street-Perrott (Swansea University)
- * Dr Edward Hodgson/Dr Gordon Allison (Aberystwyth University)
- * Huw Davies (Waste Regulation Advisor, Natural Resources Wales)
- * Dr Geoff Proffitt (WISE, Swansea University)
- * Dr Philippa Ascough (Glasgow University)
- * Prof. Stefan Doerr/Dr Cristina Santin (Swansea University)

There will be an opportunity for those wishing to contribute Poster presentations. If you wish to present a poster, please can you kindly forward us your title?

Please note that lunch will be provided. In the evening after the session, we plan a casual gathering in one of Swansea's picturesque seafront restaurants. If you wish to join us for dinner, please can you kindly inform us as soon as possible? If you have any special dietary requirements, please kindly email us your details.

The meeting will take place in the Wallace Building of the Department of Geography. Registration and coffee will commence at 10am, with talks beginning at 11am. We aim to finish proceedings by 6pm.
